

WELDON®

PRECISION HOLE SAWS AND ARBORS

Aircraft tubing and wire bundle hole fabrication
in aluminum and steel

Weldon Tool

has been manufacturing precision high performance end mills and cutting tools for over 90 years. The same manufacturing expertise is now being applied to a line of Aerospace precision hole saws.

The hardened High Speed steel hole saws are manufactured to precision tolerances.

The size range of .4375 through 1.0000 will have a 5/16-24 threaded arbor hole. Greater than 1.0000 inch will have a 1/2-20 threaded arbor hole. We are happy to quote manufactured specials to your specific needs.

The hole saw arbors **are made from one piece construction** of hardened tool steel with precision ground shoulders and threads. They have wrench flats for hole saw removal.

For your quote on precision, high speed hole saws, please contact your Weldon distributor or call 800-622-7742.
